SMART CONNECT\*

SIMPLE INSTALLATION

LONG-LIFE PERFORMANCE

SLIM DESIGN

## DESCRIPTION

The Premium Glass Infrared Heater Range comes in a large variety of shapes, wattages and colours. The Sirius model is available with square or rounded edges. Only the highest quality materials are used in these top of the range heaters creating a beautiful and elegant focal piece to any environment.

The glass used is 4mm Toughened Glass or 6mm Toughened Mirror Laminated with 4mm Toughened Glass.

They are suitable for wall installation only but can be mounted horizontally or vertically.

The Sirius range is available in both white and black mirror plus a range of other RAL colours. Bespoke finishes are also available on the glass surface.

**This unit comes with a 10 year warranty.**

\*additional module required for Smart Connect
