SLIM DESIGN

DESCRIPTION

The HMTR1660P is a classic towel rail. An attractive yet robust unit, this is very popular in general domestic homes, hotels and rented accommodation for bathroom and shower room installations. The finish is chrome as standard which adds a stunning shine to your bathroom. This effect reflects light and creates a greater sense of space within the suite. The towel rail is available in a variety of heat outputs, widths and heights to fit almost any size of room. A 700W manual electric heating element is included in this pack. **This unit comes with a 3 year warranty.**
